EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leonard Belkin on 03 November 2005.

The application has been amended as follows:

In the Claims:

Claims 9-12 have been cancelled.

In claim 1, line 1, --a plurality of-- has been inserted after "in combination".

In claim 1, line 3, --the billiard rack-- has been inserted before "comprising".

In claim 13, line 1, --a plurality of-- has been inserted after "in combination".

In claim 13, line 3, --the billiard rack-- has been inserted before "comprising".

In claim 13, line 11, --rigid-- is inserted before "plate".

In claim 13, line 11, "loop" has been changed to --loops-- after "second".

In claim 13, line 12, --rigid-- is inserted before "plate".

NOTE: The above changes have been made to overcome informalities, in order to put this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance: Claims 1-5 are allowable over the prior art of record, because the prior art does not show or suggest the combination of a billiards rack, a plurality of billiards balls and a billiards table, wherein the

billiards rack includes a first and second loop having first and second circular walls, wherein the outer surface of the first and second walls are directly joined together and the outer surface of the first wall being in direct contact with the outer surface of the second wall. Claims 13 and 14 are allowable over the prior art of record, because the prior art does not show or suggest the combination of a billiards rack, a plurality of billiards balls and a billiards table, wherein the billiards rack includes a first and second loop having first and second circular walls, a rigid plate joining the first and second together, the rigid plate connecting a point on the outer surface tangent to each of the first and second loops, wherein the plate is parallel to a line connecting the centers of the first and second loops.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mitra Aryanpour whose telephone number is 571-272-4405. The examiner can normally be reached on Monday - Friday 10:00 to 6:00.
